Characters are able to learn more psionic powers than they are able to cast each day as per **Table 1-1: Ability Modifiers and Bonus Spells** in the *Player's Handbook*. As based on their primary stat; Int for Psions and Cha for Wilders. This will increase the number of psionic powers you can learn or know, but not the number that you can cast each day (that will remain unchanged). The amount of PSPs per day per level will also remain unchanged (Psicrystals will not enjoy this benefit).
