

## **The Paladin's Virtues**

An organized approach brings the most good for all.

Laws exist to bring prosperity to those under them.

Unjust laws must be overturned or changed in a reasonable and positive fashion.

People rule; Laws help.

Cause the most good through the least harm.

Protect the weak

Goodness is not a natural state, but must be fought for to be attained and  
maintained.

Lead by Example

Let your deeds speak your intentions.

Goodness radiates from the heart.

Give others your mercy, but keep your wits about you.
